

## Appendix

**Table A1.** Standardized regression weights for multiple moderated regressions predicting age dependency in each domain from the valence of life changes, views on aging (VoA), and their interaction.

Domain	Change	VoA	Change × VoA
Family	-.01	-.12***	.01
Friends	.01	-.07***	.03 <sup>+</sup>
Independence	.03	-.12***	.05**
Leisure	-.03	-.09***	.06**
Personality	-.03	-.08***	.08***
Finances	-.02	-.08***	.04*
Work	-.07***	-.08***	.00
Fitness	-.10***	-.16***	.01
Appearance	-.14***	-.20***	.05*
Health	-.14***	-.15***	.01

<sup>+</sup> p < .10, \* p < .05, \*\* p < .01, \*\*\* p < .001

**Table A2.** Standardized regression weights for multiple moderated regressions predicting life satisfaction in each domain from the valence of life changes, age dependency (AD), and their interaction.

Domain	Change	Age dependency	Change × AD
Family	.43 <sup>***</sup>	-.11 <sup>**</sup>	.02
Friends	.33 <sup>***</sup>	-.10 <sup>***</sup>	.01
Independence	.34 <sup>***</sup>	-.03 <sup>+</sup>	.05 <sup>**</sup>
Leisure	.41 <sup>***</sup>	-.04 <sup>*</sup>	.02
Personality	.31 <sup>***</sup>	-.10 <sup>***</sup>	.06 <sup>***</sup>
Finances	.44 <sup>***</sup>	-.15 <sup>***</sup>	.06 <sup>***</sup>
Work	.49 <sup>***</sup>	-.05 <sup>**</sup>	.01
Physical fitness	.52 <sup>***</sup>	-.04 <sup>**</sup>	.03 <sup>*</sup>
Mental fitness	.43 <sup>***</sup>	-.12 <sup>***</sup>	.01
Appearance	.46 <sup>***</sup>	-.10 <sup>***</sup>	.04 <sup>*</sup>
Health	.58 <sup>***</sup>	-.06 <sup>***</sup>	.05 <sup>***</sup>

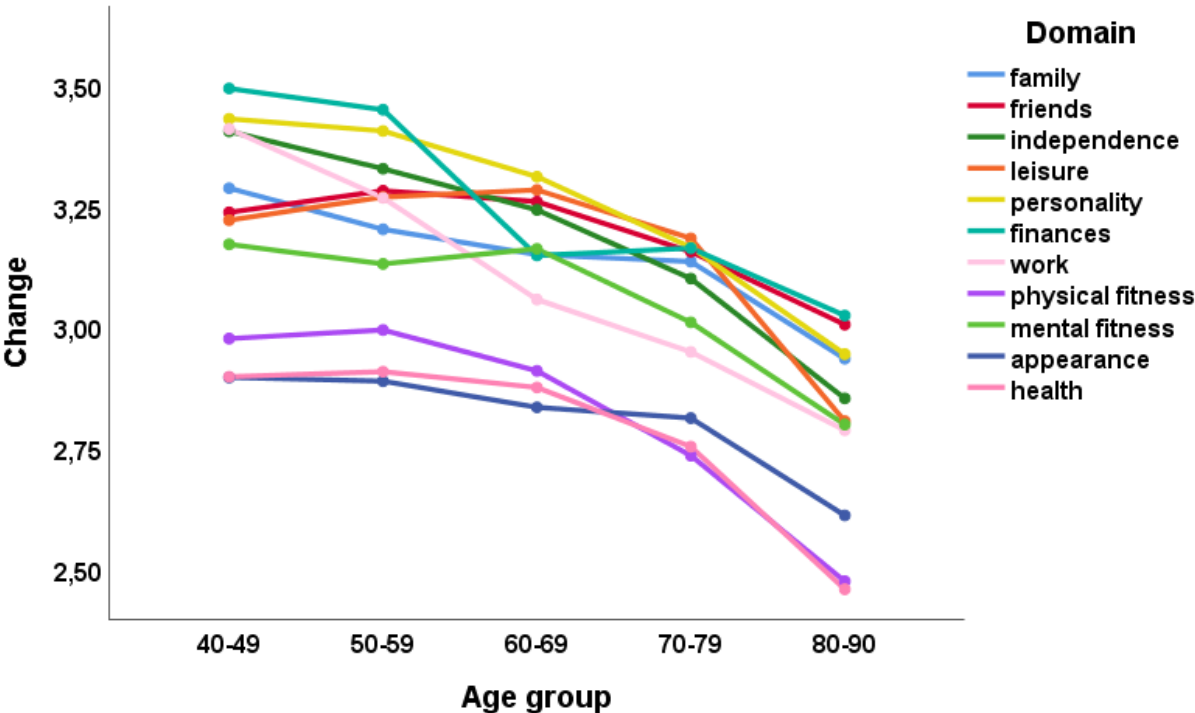

<sup>+</sup> p < .10, \* p < .05, \*\* p < .01, \*\*\* p < .001

**Table A3.** Standardized regression weights for multiple moderated regressions predicting life satisfaction in each domain from the valence of life changes, age dependency, age, and their interactions.

Domain	Change	Age dependency	Age	Change × AD	Change × Age	AD × Age	Change × AD × Age
Family	.44***	-.10***	.08***	.03	-.03	-.01	.04*
Friends	.34***	-.10***	.08***	.01	-.01	-.02	.04*
Independence	.34***	-.01	.03	.03 <sup>+</sup>	.10***	-.04*	.04 <sup>+</sup>
Leisure	.42***	-.05**	.13***	.02	-.02	-.03	.04*
Personality	.32***	-.10***	.06**	.06**	.01	-.02	.04*
Finances	.47***	-.13***	.16***	.06**	.01	-.04*	.03
Work	.49***	-.05**	.03*	.01	-.04*	-.02	.00
Physical fitness	.54***	-.04*	.08***	.02	.05**	-.04*	.01
Mental fitness	.43***	-.11***	.05**	.01	.02	-.05**	.06**
Appearance	.46***	-.10***	.04*	.03*	.01	-.04*	.02
Health	.58***	-.06***	.01	.04*	.05**	-.05**	.00

<sup>+</sup> p < .10, \* p < .05, \*\* p < .01, \*\*\* p < .001

**Figure A1.** Cohort differences for the valence of life changes across life domains.

**Figure A2.** Cohort differences for perceived age dependency of changes across life domains.
